Email: mindbender6@yahoo.com

SUMMARY

Resourceful Senior Software Engineer with 15+ years of experience in software architecture and development, specializing in cloud-based solutions and microservices. Proven track record in leading teams through complex migrations and implementing Agile methodologies. Successfully directed the design and deployment of scalable applications, optimizing CI/CD processes and enhancing system performance. Skilled in Azure, DevOps, and modern development practices, with a commitment to mentoring junior developers and fostering innovation.

TECHNICAL SKILLS

- Design and implement information systems across multiple platforms including modern cloud platforms (Azure, Google Cloud), virtualization technologies (VMware, Docker, Kubernetes), and operating systems (Windows Server, Linux, macOS).
- Expertise in modern development tools and frameworks: Blazor, .NET Core, ASP.NET, React, Node.js, Python, and JavaScript/TypeScript.
- Experience with DevOps practices including CI/CD pipelines (Azure DevOps, Jenkins, GitLab CI), version control (Git, GitHub, Bitbucket), and infrastructure-as-code (Terraform, Ansible).
- Proficient in database technologies and data management systems: relational databases (SQL Server, PostgreSQL, MySQL) and NoSQL databases (MongoDB, Cassandra).
- Extensive experience with cloud-native architecture and microservices, containerization, and serverless computing (Azure Functions, AWS Lambda).
- Deep understanding of RESTful APIs, GraphQL, and API management (Postman, Swagger).
- Experience in Agile/Scrum methodologies and tools (Jira, Confluence, Azure Boards) for iterative software development.
- Knowledge of modern security best practices, including identity management (OAuth 2.0, OpenID Connect) and data protection strategies (encryption, TLS, security auditing).

TECHNICAL EXPERTISE

- Cloud Platforms:**
Azure, Google Cloud Platform
- Languages & Frameworks:**
C#, C++, VB, Java, Python, .NET Core, Blazor, React, TypeScript, NodeJs
- Web & API:**
ASP.NET Core, GraphQL, gRPC, WebSockets
Front-end: React, Angular, Vue.js, Webpack, Sass
- Databases:**
MS SQL, Azure SQL, Cosmos DB, Redis, Elasticsearch, MongoDB, TSQL
- Containerization & Orchestration:**
Docker, Kubernetes, Azure Kubernetes Service (AKS)
- DevOps & CI/CD:**
Azure DevOps, GitHub Actions, Jenkins, Terraform
- Monitoring & Analytics:**
Application Insights, ELK Stack, Prometheus, Grafana
- Authentication & Security:**
OAuth 2.0, OpenID Connect, Azure AD B2C, OWASP

MANAGEMENT EXPERIENCE

Managed integrated application development, architecture, and implementation projects in complex distributed environments for multi-billion dollar financial and logistics companies. Established and fostered stakeholder relationships through frequent interaction with all levels of management. Managed several employee and contractor resources while reporting to the director of information technology. Built, managed and provided leadership to development teams. Responsible for recruiting, hiring, mentoring, and performance appraisals.

BUSINESS KNOWLEDGE

Experienced in financial, healthcare, multimedia and ecommerce business sectors, developing packaged software and enterprise business solutions. Familiar with the concepts and processes of accounting (GL, AP, AR), supply chain management, order processing, inventory control, billing, purchasing, and customer information. Experience in analyzing key business requirements and strategic objectives to develop cost-effective solutions.

PROFESSIONAL EXPERIENCE

Current **CreditServe – Lead Software Engineer**
Pflugerville, TX

- Lead a team in migrating multiple legacy web applications from Asp Forms and MVC to modern architecture including Blazor and Angular implementations and integrating with a microservices architecture hosted in Azure, ensuring enhanced scalability and performance.
- Lead architect on design and implementation of containerized microservices hosted on Azure cloud.
- Directed the implementation of Azure DevOps pipelines for CI/CD, optimizing of testing and deployment processes and reducing downtime.
- Provided leadership in architecting solutions and guiding cross-functional teams through challenging migration tasks, mentoring junior developers in modern development practices.

- Championed implementation of Agile development lifecycle and established standardized processes and protocols for development, testing and release cadence to manage project timelines, ensuring that software deliverables met stakeholder expectations while maintaining high-quality standards.
- **Tech:** Azure, Azure DevOps, Docker, Kubernetes, TFS, CI/CD, C#, .Net Core, WPF, Blazor, Bootstrap, SQL Server, T-SQL, NodeJS, Angular, JavaScript, Agile workflow.

**05-2018
02-2024**

Jack Henry & Associates - Senior Software Engineer Lead (Advisory III)

Monet, MO

- Successfully led the transition of legacy services to a microservice-oriented cloud architecture. Tech includes Blazor, Azure, and .Net Core resulting in a 40% increase in system resilience and scalability.
- Implemented a comprehensive Azure DevOps strategy, reducing deployment times by 25% and enhancing team agility, by implementing a CI/CD process including gated check-ins in Azure.
- Developed and deployed advanced PowerShell automation scripts, leading to a 20% increase in operational efficiency.
- Played a pivotal role in a project that improved system security protocols in one of the company's flagship platforms, reducing vulnerability incidents by 30%.
- Mentored a team of 6 junior engineers, fostering a culture of continuous learning and excellence in software development.
- Leveraged a diverse technological toolkit encompassing VB.NET, WPF, MVVM, Caliburn Framework, and COM, among others, to not only maintain but add functionality and features to improve our flagship WinForms desktop product.
- **Tech:** Azure, Azure DevOps, TFS, Automated Testing, CI/CD, C#, .Net Core, WPF, Blazor, Bootstrap, Elasticsearch, SQL Server, T-SQL, StrataFrame, Redis, JavaScript, NodeJS, Agile workflow.

**10-2016
05-2018**

Ability Commerce - Senior Software Engineer Lead

Delray Beach, FL

- Championed the adoption of modern software architecture principles to develop a scalable, cloud-based data service for Ability Commerce's flagship order management system, ensuring minimal changes to the existing codebase.
- Created code generation utilities and implemented continuous integration and continuous delivery (CI/CD) pipelines to streamline the development process and improve the reliability of the client CSLA layer with the new RESTful service layer.
- Designed an MVC-based user management utility that leveraged containerization and microservices for secure administration of user roles and access.
- Mentored and led a team of developers, promoting best practices in DevOps, Agile methodologies, and modern software architecture.
- **Tech:** Azure, Azure DevOps, CI/CD, Testing, TFS, VB6, VB.Net, C#, .Net Core, Blazor, SQL Server, VS 2022 Ent, SSMS, Xcode, TFS, MSSQL, C#, Xamarin and WPF, MVC, WCF, AJAX, XML, HTML, CSS, React, Knockout, JSON, Unity, Razor, OWASP, ASP, jQuery, JavaScript, Agile workflow.

**11-2013
09-2016**

Allin Interactive - Senior Software Engineer

Fort Lauderdale, FL

- Refactored and greatly improved overall security and manageability of Allin's Flagship interactive multimedia and entertainment solution.
- Successfully modernized legacy system modules includes migrating to the cloud.
- Reduced overall workload by creating several utilities and processes to eliminate repetitive and tedious tasks including rebranding.
- Mentored to colleagues when required and assisted in testing and debugging as new releases became ready.
- Provided end user documentation as required for new development as well as upgrades and changes to existing modules.
- **Tech:** Visual Studio Ent., SSMS, Xcode, TFS, MSSQL, C#, Java, Objective C, Java, .Net Framework, WinForms, MVC, WCF, AJAX, XML, HTML, CSS, Knockout, JSON, Unity, Razor, Claims Based Security, ASP, jQuery, JavaScript. TDD and Agile workflow

**03-2013
11-2013**

Bureau Veritas – Senior Software Engineer

Sunrise, FL

- Emphasized microservices architecture, containerization, and cloud computing in application development.
- Engineered a high-performance Web Services for field data acquisition for iPad and OS2.
- Created and maintained several SQL Server databases for data acquisition and reporting services.
- **Tech:** : IIS, .Net, SQL Server, Javascript, HTML etc.

**02-2011
03-2013**

Senior Software Developer

Zimmerman Advertising – Fort Lauderdale, FL

- Utilized Agile methodologies and practices, and modern software architecture principles.
- Developed multiple web sites for client ad campaigns and contests, including Facebook tabs and pages.
- **Tech:** IIS, .Net, SQL Server, Javascript, HTML etc.

**12-2008
02-2011**

Southeast Toyota / JM Family – Senior Software Developer

Deerfield Beach, FL

- Lead development team tasked with maintaining and upgrading existing code and authoring new applications.
- Streamlined Inventory intake by designing a C++ solution that automatically photographs and documents every auto as it comes off the ship at the port using Nikon's MAID3 SLR Camera API.
- Engaged in database related tasks including design, maintenance, performance tuning, SP's, triggers, tables and views.
- **Tech:** ASP(legacy), ASP.Net 3.5, C#.Net, VB6, LINQ, MS SQL Server 2005, Oracle, MS IIS 6.0., HTML, DHTML, CSS, XHTML, SOAP, XML JavaScript

**02-2005
11-2008**

Florida Power & Light - Senior Software Developer

Jupiter, FL

- Design and code FPL's ERP solution that handles FPL's work management including plant maintenance, overhaul and regulatory reporting.
- System implemented .Net 2.0, Web Services, MS Workflow Management, MS Best Practices and Pattern's, multi-tier design, application blocks, MS Atlas (AJAX).
- Authored several reports using MS SQL Server Reporting Services, Web Services, Sybase and SQL Server.
- **Tech:** .Net 2.0 development technologies, ASP.Net 2.0, VB.Net, Sybase, MS SQL Server, MS IIS 6.0., HTML, DHTML, CSS, XTML, XML, JavaScript

Education

Broward County Community College
Florida Atlantic University

OSHA, Ft. Lauderdale, FL
40 hours of Health & Safety Training

Broward County Journeyman's Preparation
Nova Davie Community School

Additional Competencies

Licensed Journeyman in Broward, Dade and Palm Beach Counties
Licensed Master Electrician in Broward, Dade and Palm Beach Counties
